PROFILE

Passionate about safeguarding digital landscapes. I am a dedicated cybersecurity enthusiast with a strong determination to make the digital world more secure. Armed with a solid foundation in cybersecurity principles, I possess a keen eye for identifying vulnerabilities and a strategic mindset to implement effective solutions. With a continuous thirst for learning, I am adept at staying ahead of evolving threats and technologies.

EDUCATION

B.Tech Cybersecurity
NIIT University
08/2020 – present | Neemrana, India
CGPA 9.04

High School Education(XI XII)
FIITJEE Junior College
05/2018 – 05/2020 | Vijayawada, India
Percentage 90.7

Tenth Class
Jawahar Navodaya Vidyalaya
07/2013 – 04/2018 | Markapuram, India
Percentage 93.7

SKILLS

- VAPT
- Digital Forensics
- Python
- Network Security
- Linux
- Cloud Computing

INTERNSHIPS

Cisco Virtual Internship
05/2023 – 07/2023
I gained knowledge about cloud security, cybersecurity and packet tracer. I learnt about computer networking and did a project in packet tracer.

PROJECTS

KeySec
Authenticating users based on keyboard biometric data
01/2023 – 05/2023
Our project reimagines security by analyzing typing patterns, making each login both personalized and secure. By combining normal authentication system and keyboard biometrics, we were able to stop impersonation attacks. [GitHub link]

Malware Detection using Behavioral pattern
01/2023 – 05/2023
We devised a cutting-edge malware detection system, driven by behavioral analysis. By scrutinizing digital behavior patterns, we've engineered an advanced defense against evolving cyber threats.
